My trip to Malaysia

by Adam Storm

Last month I was in Malaysia and I wanted to try Malaysian food. The hotel receptionist told me about a popular restaurant near the Melaka River. I decided to go on foot and explore the city. I soon got tired and took the bus from a nearby bus station. There was a lot of traffic, so I got off and decided to take a taxi. When the taxi stopped, I couldn't see the restaurant. I didn't know what to do. 'Do you need help?' a man asked me. I was so happy! He could speak English very well! 2c Exploring the past

A. Listen and read. Do you know anything about The Orient Express or about the Silk Road?

ON THE MOVE

THE ORIENT EXPRESS

The Orient Express was a train route that went all around Europe. The line started from Paris and went to Istanbul with many stops in between. The first train left from Paris on 10th October, 1882, around 6:30 in the evening and got to Vienna the next day at 11:20 at night. The Orient Express was a famous means of transport because it was comfortable. The train system operated for over a hundred years but it doesn't operate any more. It stopped running in December 2009.

THE SILK ROAD

The Silk Road is a system of roads that connect Asia with the Mediterranean. In the past, people used this network for trading goods from Asia to Africa and Europe. Chinese silk was a very popular trading item in the network and for this reason the 'road' got its name from it. The Silk Road is about 3,000 years old and the roads are over 11,000 km long.

Merchants travelled in caravans and used camels, horses and even donkeys to carry their goods. Because of this network of roads it was easy for people, ideas and traditions to spread from one part of the world to another. For example, Arabs used the Silk Road to spread Islam and their culture to China.

Down the hole

Last year I was on holiday in New Zealand with my parents. One afternoon, I was climbing a cliff with my brother, Omar, when we found a huge cave. We were exploring the cave when suddenly Omar disappeared. I shouted his name but there was no answer. I was really scared, but I tried to stay calm. Then, I saw a hole in the floor of the cave and I heard Omar's voice. I looked down the hole and saw Omar swimming in the sea. 'I fell in!' he shouted. 'Come on, it's brilliant!' So, I jumped down the hole, too. In fact, we spent the whole afternoon jumping down the hole into the sea.

It was cold and icy in the far north of America, and there was snow all around. Henry and Bill were on a long and difficult journey. In the beginning, they had six dogs, but every night, they lost another to the wolves. Now, with only three dogs, they were travelling slowly.

'You know that sharks follow ships. Well, those wolves are land sharks!' said Bill. He was very angry because they couldn't scare the wolves away.

Suddenly, a brave she-wolf appeared. She was different from the rest of them. She wasn't scared of the humans. Henry and Bill were surprised. Even their dogs were friendly to her and one of them ran towards her. Then about twelve wolves jumped out of the bushes, attacked the dog and started biting its neck and legs. The two men were shocked!

'It's a trap! These wolves are clever! We need to stop them, now!' said Bill and started chasing the wolves.

'You're crazy!' shouted Henry. 'You've only got three bullets!'

A few minutes later, Henry heard cries and three gun shots. Then, there was silence. Bill didn't return. Henry knew he couldn't save him. It was just him and two dogs now. He was alone and afraid.

I quickly ran outside to help it but it was very windy and the door closed behind me. I got locked out! I had no keys, phone or money. My parents were away for a few days, so nobody could help me. Luckily, my bedroom window was open, so I took a ladder and started climbing up. Unfortunately, while I was climbing, a police officer saw me. 'Come down immediately!' he shouted. I was shocked!

I tried to explain the situation but he didn't want to listen. Fortunately, after a while, our next-door neighbour heard us, came out and said to the police officer, 'Charlie is a good kid! That's his house!' What a day!

A. What do you know about our solar system? Listen, read and check your answers.

Our solar system

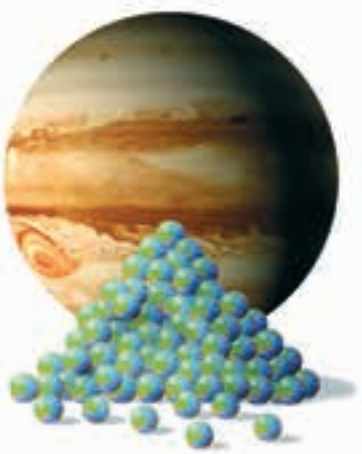
There are billions of galaxies in the universe. Each galaxy has got billions of solar systems! Everybody knows that, right? Well, there's more!

Our galaxy, *the Milky Way*, has got up to 400 billion stars, and one of them is the sun. The sun is in the centre of our solar system and all the planets move around it. It is important for life on Earth because it gives us light and heat.

Our solar system has got eight planets, not nine like we used to think: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune. Scientists don't consider Pluto a planet any more, but a *dwarf* planet, because it's very small. So, the smallest planet in our solar system is Mercury and the biggest is Jupiter. Also, the closest planet to the sun is Mercury, but it isn't the hottest. The hottest planet of all is Venus: it has temperatures of about 460ºC! Neptune is the farthest planet from the sun, and it is one of the coldest planets of the solar system along with Saturn and Uranus. Temperatures on Neptune can reach -220ºC!

! It takes one second for a human to freeze on Uranus!

! You can fit around 1320 Earths inside Jupiter! That's big! Also, Jupiter is as heavy as 317 Earths!



! Sunlight travels at over 1 billion km/h. It takes about 8 minutes to reach the Earth and about four hours to reach Neptune.

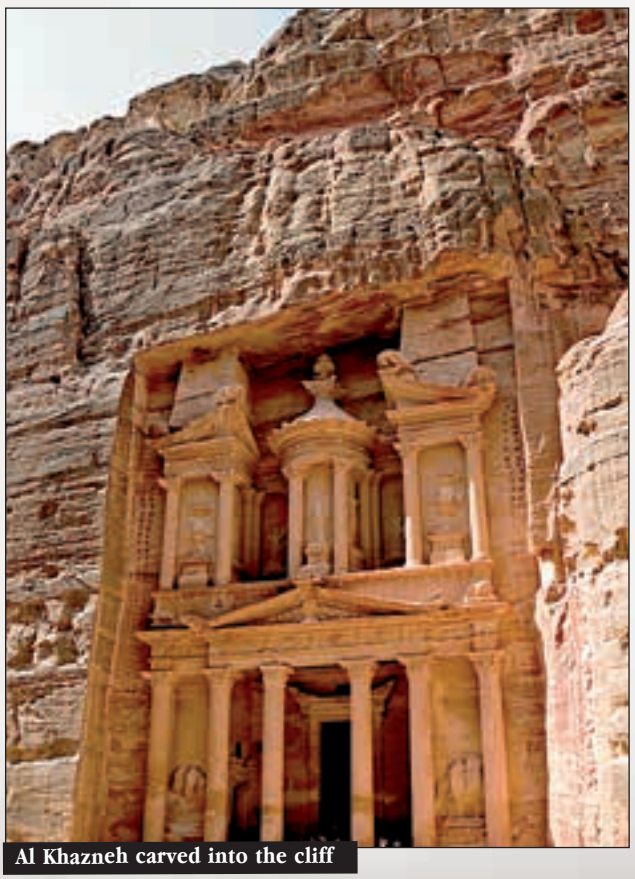
Petra, Jordan: A must-visit sight...

While he was travelling through Jordan in 1812, the Swiss explorer Johann Ludwig Burckhardt found an ancient city unknown to the Western World. People described it as 'a rose-red city half as old as time'. In Greek, Petra means 'stone'.



Al Khazneh carved into the cliff

The incredible thing about the city is that the Nabataeans carved the rose-red stone hills to create it. About 2400 years ago, Petra was the capital city of the Nabataeans. The Nabataean kingdom was very rich, and they built the most fascinating buildings. One of these is Al Khazneh or the Treasury. This building stands 39m tall, but nobody knows why the Nabataeans built it. Today, Al Khazneh is quite famous and has appeared in many documentaries. Around 600,000 tourists visit the ancient site every year and in 2007 people chose it in an Internet poll as one of the New Wonders of the World.

Mummy Mania

In the past, people believed that when they died they went to another world. In many parts of the world, people thought that when a person died, he or she needed their body in that world. Most mummies come from Egypt. Some are 4000 years old! The most famous one is the mummy of Pharaoh Tutankhamun (say it: toot-an-ka-men). He died when he was 17 years old! An English archaeologist, Howard Carter found the mummy of Pharaoh Tutankhamun in 1922.

The Incas made people into mummies, too. The Inca mummies are about 600 years old. They don't look like the Egyptian mummies, but they also have everyday things with them. In April 2002, archaeologists found over 2000 mummies near Lima, the capital city of Peru.
